

Fields marked with a \* are required.

**First Name** \*William

**Last Name** \*Bryk

**What office and district are you running for?** \*United States Senator

**City** \*Brooklyn

**Email** \*wmbryk@gmail.com

**1. Are you familiar with the Common Core State Standards and how it is affecting education in our state?**

- It's new to me, but I will learn more.
- A working knowledge and NOT in favor of it.
- A working knowledge and in favor of it.
- Other

**Comments**

I have the average well-read citizen's understanding from reading the newspapers; I am also married to a professional educator.

**2. Would you consider sponsoring legislative remedies in the upcoming legislative session that would include a total removal of Common Core in Wyoming and mandating state-created standards of higher quality?**

- Yes
- No
- Other

**Comments**

I would sponsor legislation in Washington to repeal any law compelling any state to adopt Common Core.

**3. Do you believe the budget footnote defunding the NGSS was the correct decision for the state of Wyoming?**

- I agree that this is the direction that the majority of educators and parents feel we should go.
- I disagree and feel that the NGSS should have a place in Wyoming
- Other

**Comments**

I am unfamiliar with the budget footnote and cannot intelligently answer this question.

**4. Do you feel it is important the Wyoming Department of Education improve communication with parents/public to allow for meaningful input into the education of their children and support legislation strengthening current communication practices?**

- Yes
- No
- Other

**Comments**

While this is not a federal question within the competence of the office I seek, I generally favor transparency and effective communication between government agencies and the people they serve.

The Statewide Longitudinal Data Systems (SLDS) is a citizen tracking program, and a grant program, that rewards states financially for participating. It's also called P-20, which stands for preschool through age 20 (workforce) tracking. It will hold data and share it statewide and with third parties. This data includes a unique identifier for every student that does not permit a student to be individually identified (except as permitted by federal and state law) and also includes the following; school enrollment history, demographic characteristics, and program participation record of every student; information on when a student enrolls, transfers, drops out, or graduates from a school; students scores on tests required by the Elementary and Secondary Education Act; information on students who are not tested, by grade and subject; students scores on tests measuring whether they're ready for college; a way to identify teachers and to match teachers to their students; information from students' transcripts, specifically courses taken and grades earned; data on students' success in college, including whether they enrolled in remedial courses; data on whether K-12 students are prepared to succeed in college; a system of auditing data for quality, validity, and reliability; and the ability to share data from preschool through post secondary education data systems.

**5. Would you support legislation insuring that parents are informed about the data being collected on their children in public school, which also includes information on how that data is being used and mandates safeguards for protecting that data? (The following language would also be included in the legislation: not allowing data to be shared between state agencies, not collecting data without written parental consent (opting-In), not sharing the child's name or any identifying information outside the local district, etc.)**

- Yes
- No
- Conditionally

**Comments**

I disfavor the collection of data on individual children.

**6. Do you support legal recourse to the entity who is gathering data on Wyoming citizens, should the data be misused or stolen by a third party due to insufficient safeguards protecting the data held by the State Longitudinal Database (SLDS)?**

- Yes
- No
- Other

**Comments**

If the entity fails in its duty of security, it should be liable to the injured parties.

**7. Should the state level standardized test (PAWS) be changed to a national test such as Smarter Balanced Assessment Consortium (SBAC) or Partnership for Assessment of Readiness for College and Careers (PARCC), who are both partnered with the American Institute for Research (AIR - a behavioral and social science research and evaluation organization)?**

- Yes
- No
- Other

**Comments**

Education is among the issues reserved by the Constitution to the states and the people. Wyoming and her people should formulate those policies best suited to them.

**8. Do you believe that tying a teacher's evaluation to her/his students' test scores is detrimental to good teaching practice and encourages teaching to the test?**

- Yes and I will support legislation preventing it.
- No
- Other

**Comments.**

The teacher is not responsible for the individual student's socioeconomic issues and should not be evaluated based upon the luck of the draw in having a student who may come from a poor or non-English speaking background.

**9. Do you believe that parents have the Constitutional right that allows for their input and grants them as the final decision maker in the education of their child, when it comes to the standards, curriculum, absenteeism, homeschooling, etc?**

- Strongly Agree
- Agree
- Disagree
- Strongly Disagree
- Other

### **Comments**

The 10th Amendment to the Constitution reserves education as a matter for the states and the people.

### **10. Additional comments about Education.**
